

At Boehringer Ingelheim, our ongoing mission is to ensure the health care community has access to the important medicines, products and education they need. We appreciate your relentless effort to continue to support patient care, and we know your patients are of special concern. To keep medical experts like yourself up to date on key topics, we are pleased to invite you to:

What Can We Learn About the Evolving Squamous NSCLC Treatment Landscape? An Expert Discussion on Emerging Real-World Evidence

This event will be streamed live on **May 5, 2021 at 12:00PM (ET)** with subsequent restreams at **3:00PM (ET), 6:00PM (ET) AND 9:00PM (ET)**

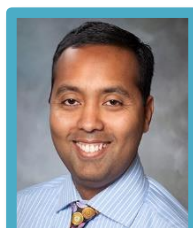

To secure your spot in this **virtual** event, please visit:

<https://cvent.me/PWl0mr>

This exciting event will feature perspectives from:

Edward Kim, MD
Physician-in-Chief,
City of Hope, California

Janakiraman Subramanian, MD
Director of Thoracic Oncology,
Saint Luke's, Kansas

These panelists will discuss the following:

- What are the outstanding questions regarding treatments in squamous NSCLC?
- What does recent real-world evidence reveal about clinical management of patients with squamous NSCLC?
- How can real-world evidence be used to inform treatment strategies for squamous NSCLC?

Through these exciting interactions, we hope to provide you with the information and inspiration you need to build upon your expertise. If you have any questions, I can be reached at **913 515 1993** or via email at john.schultz@boehringer-ingelheim.com.

I look forward to hearing from you.

Regards,

John Schultz
